

2014 Humanitarian Projects

Youth:

Make A Wish Foundation

Helping terminally ill children's wishes come true.

We Love London

One World Humanity was able to donate to Wynde Klauer's granddaughter London to help build a school in Nicaragua. Here is some information about her adventure and a link to facebook <https://www.facebook.com/groups/463783000434516/> I hope you enjoy the news, thanks for all your support, blessings and love, Grace

Indigenous Cultures:

Buffalo Blessings

We will raise money for the amazing charitable organization Buffalo Blessings who help bring much needed food, clothing, medical supplies to the Hopi and Navajo Indian reservations. We will fund raise June, July and August with Grace On Fire interviews and our annual camp out. Many people live like third world countries... on dirt floors with no running water or electricity. They have no access to healthy food and are forced to eat cheap low quality food.

Extreme Poverty:

Marshall Islands Project

The village of Lae in the Marshall Islands is a small village where the people need to plant more food trees such as breadfruit, pandanus, coconuts and taro, and they don't have enough tools to do this. Also the island is out of fishing hooks, and other things needed for fishing. The One World Humanity project this month is to purchase knives for gathering coconut sap, fishing hooks and lines, snorkels & masks for spear fishing so these beautiful people can thrive more abundantly. We invite you to join us with your support. www.oneworldstudio.com Thank you Carol for being over there to purchase and deliver the tools right to the people in the village.

Women's Causes:

Local Charitable Organizations One World Humanity Donated to in 2014...

- Buffalo Blessings that help the Hopi Indians... suggested by Jan Magner
- Make a Wish Foundation helping terminally ill children's wishes come true... suggested by Carla Davis
